

# Luis A. Ortega

✉ [luis.ortega@uam.es](mailto:luis.ortega@uam.es) • [ludvins.github.io](https://github.com/ludvins) • [in](#) ludvins • [🔗](#) ludvins

## Experience

- Teaching Assistant and Research Personnel**, *Autonomous University of Madrid* 12/2021 – Present  
Ph.D. Student granted with FPI-UAM Scholarship with Daniel Hernández Lobato.
- Visitor Researcher**, *University of Cambridge* 09/2023 – 12/2023  
Research on Uncertainty Estimation on Large Language Models with José Miguel Hernández Lobato.
- Research Assistant**, *University of Almería* 02/2021 – 12/2021  
Worked with Andrés R. Masegosa studying the effect of diversity on Deep Neural Network ensembles.

## Publications

- Variational Linearized Laplace Approximation for Bayesian Deep Learning** [\[PDF\]](#) [\[Code\]](#)  
**Luis A. Ortega**, Simón Rodríguez-Santana and Daniel Hernández-Lobato  
International Conference on Machine Learning (ICML), 2024
- Deep Variational Implicit Processes** [\[PDF\]](#) [\[Code\]](#)  
**Luis A. Ortega**, Simón Rodríguez-Santana and Daniel Hernández-Lobato  
International Conference on Learning Representations (ICLR), 2023
- Diversity and Generalization in Neural Network Ensembles** [\[PDF\]](#) [\[Code\]](#)  
**Luis A. Ortega**, Rafael Cabañas and Andrés R. Masegosa  
Artificial Intelligence and Statistics (AISTATS), 2022

## Ongoing Research

- PAC-Chernoff Bounds: Understanding Generalization in the Interpolation Regime** (under review) [\[Draft\]](#)  
Explaining deep learning techniques (weight-decay, overparameterization, data-augmentation) using Large Deviation Theory.
- If there is no underfitting, there is no Cold Posterior Effect** (under review) [\[Draft\]](#)  
Misspecification leads to Cold Posterior Effect (CPE) only when the resulting Bayesian posterior underfits.
- PAC-Bayes-Chernoff Bounds for Unbounded Losses** (under review) [\[Draft\]](#)  
PAC-Bayes version of the Chernoff bound which solves the open problem of optimizing the free parameter on many PAC-Bayes bounds.

## Education

- Ph.D. Student**, *Autonomous University of Madrid* 11/2021 – 11/2025  
Thesis: *Variational Inference for Bayesian Deep Learning*
- M.S. in Data Science**, *Autonomous University of Madrid* 2020 – 2022  
Master Thesis: *Deep Variational Implicit Processes*
- B.S. in Computer Science**, *University of Granada* 2015 – 2020
- B.S. in Mathematics**, *University of Granada* 2015 – 2020  
Bachelor Thesis: *Statistical Models with Variational Methods*

## Honors & Awards

- Granted Santander-UAM Scholarship. Uncertainty Estimation in LLM at Cambridge University.** 2023  
Computational and Biological Learning Lab, University of Cambridge
- Granted FPI-UAM Scholarship. Competitive Predoctoral Contract for Training Research Personnel** 2021  
Department of Computer Science, Autonomous University of Madrid
- Research Collaboration Scholarship** 2020  
Department of Computer Science, Autonomous University of Madrid
- Granted Highest Mark on Bachelor's Thesis, 10/10. Statistical Models with Variational Methods** 2020  
Department of Computer Science and Faculty of Science, University of Granada
